Seems to me the whole debacle began at the Spyhop with Mr. Cash falling over the rail into the shrubbery below and I've included the photos leading to this conclusion

We must now ask why he fell. Was he pushed? I knew CZ and, while he drank his share, I never knew him to be fall down drunk. He had a mighty tolerance.

I assume toxicology report has been requested. Please let me know the results ASAP. I shall miss CZ's friendship and am impatient to see his murderer behind bars!
